

PROFILES OF HIGHER EDUCATION INSTITUTIONS IN LESOTHO

The Council on Higher Education (CHE) promotes quality in higher education in Lesotho and ensures that all institutions of higher learning in the Kingdom adhere to set standards and produce high calibre graduates who can contribute positively towards socio-economic development of the country. It is part of CHE mandate to publish information on developments in higher education on a regular basis.

Higher Education Institutions that CHE regulates are those offering academic qualifications higher than COSC / LGCSE or equivalent, as opposed to technical and vocational training programmes. Thus, the institutions profiled here constitute the higher education sub-sector in the Kingdom.

The information contained in this document was compiled in 2017 and therefore presents the situation in the higher education institutions during 2016/17.
